

NETWORK SPECIALIST

Are you a motivated individual who enjoys a variety of activities to fill your day? Are you a dependable, self-starting, problem-solver who gets excited about technology? If yes, then MHTC is looking for you to join our team!

Located just 15 minutes west of Madison, WI, Mount Horeb Telephone Company, dba MHTC, is in search of a Network/IT Specialist that is energetic, self-directed and enjoys the challenge of IT. This individual will work directly with our IT support team, assisting internal and external customers.

What we seek is a team-oriented, dynamic, self-starting and customer-focused Network/IT professional with a positive attitude. A courteous demeanor with professional conduct is required. If a challenging technical position with internal and external customer contact excites you and you have IT experience, combined with a passion for learning new technologies, let's talk. This isn't your normal position where you may be relegated to one facet of technology or repetitive tasks. Instead, you will be instrumental and have the chance to work in many technical areas. We are looking for a network leader who can think for themselves, possesses the ability to see multiple paths and has the desire and drive to arrive at the best possible solution.

Here's how you will contribute:

- Evaluate networking hardware devices and software
- Troubleshoot and support internal IP networks
- Learn, operate, and maintain IP network solutions delivering IP network data and voice to deployed customer access networks utilizing fixed wireless, xDSL and FTTX technologies
- Configure, implement, maintain and troubleshoot network connectivity hardware
- Assist with the configuration, implementation of LAN servers, user PC's, and network connectivity hardware
- Evaluate, maintain and/or improve network security and standards
- Develop and document system standards for networks and customer premise equipment
- Perform network maintenance and system upgrades
- Provide technical assistance to Network and Operations groups 24 x 7, as needed

Skills/Qualifications

- Technical degree in an IT related field or equivalent experience
- Excellent communication, analytical and time management skills
- Ability to work cohesively with other team members company-wide and promote a positive attitude
- Valid drivers license for work related travel
- Knowledge of networking infrastructure (wired and wireless) including implementation and maintenance of VLANs (required)
- Manufacturer specific knowledge a plus (Adtran and Cisco)
- Knowledge of TCP/IP protocols (required)
- Knowledge of server operating systems, Microsoft Windows servers & workstations, and Linux
- Knowledge of hypervisor environments, Hyper-V and ProxMox
- Knowledge of GIS

What's in it for you?

MHTC offers an excellent benefits package and salary commensurate with qualifications and experience. From the start you will be an integral team member to our group of 20+ employees that work together providing a distinguished level of quality service to our customers.
